Dear respondent,

On behalf of the AWARE (Animal welfare research in an enlarged Europe) consortium, we would like to thank you for your contribution to our first questionnaire concerning mapping of farm animal welfare research and education in EU and candidate EU countries.

In this second stage, we would like you to answer a more detailed questionnaire related to your specific teaching activities focusing on farm animal welfare.

This part of the project aims to map existing and planned education in farm animal welfare, as well as to identify opportunities for future collaboration and support. For example the AWARE partners are currently organizing a series of regional roadshows to promote the sharing of ideas and methods that can be used to teach farm animal welfare in higher education. We are also considering an open access website where examples of courses and educational material / learning objects can be stored, shared and further developed.

To learn more about the aims and plans of the AWARE project and how to reach these goals, please visit our website www.aware-welfare.eu.

Please, complete this form in ENGLISH

Who should fill in this questionnaire and how?

We are only interested in information about courses focusing - fully or at least partly - on farm animal welfare. If you are not currently teaching farm animal welfare, but have plans to start some education in this area, please continue to the next page and specify your future plans.

If the course is taught by several teachers, we ask you kindly to communicate within each other and to fill in the questionnaire only once, to avoid duplication(s) of information.

Technical notes

If your browser is set to your native language, the system commands ("CONTINUE", "OTHER", "SUBMIT" etc.) will be displayed in your language.

Do not use the "BACK" command of your browser, but the "BACK" command of the questionnaire.

If you select the choice "OTHER" for a question, don't forget to click/mark the (round or square) box on the very left. Otherwise your answer won't be recorded.
0. Your contact information

0.1 First name *
Please, fill in your given name

0.2 Family name *
Please, fill in your family name

0.3 E-mail *
Please, fill in your e-mail address [without "@": e.g. Mary.Smith(at)hotmail.com]

If you are NOT currently teaching farm animal welfare, but have plans to start some education in this area, please go directly to "FUTURE PLANS".
(Otherwise skip the question.)

Please fill in the questionnaire for each course separately.

If you are teaching the same course in more than one overall program (e.g. in Animal Science, Veterinary medicine etc.), or at more than one education level (MSc, BSc. etc.), please fill in the questionnaire first for the course with the highest educational level or number of students attending and then at the end of this section specify the details of the identical course(s).

This questionnaire enables you to enter five different courses (it takes 10 minutes maximum per course).
COURSE No.1

Please, fill in details of course no.1.

General information regarding the course - focusing fully or partly - on farm animal welfare.

If you are teaching the same course in more than one overall program or at more than one education level, please fill in the questionnaire for the course with the highest educational level or number of students attending. At the end of this section there is an option to give details about the identical course(s) when it is also given at other level(s) or in other program(s): level, name of overall program, number of students etc.
